

# PRODUCT CHANGE NOTICE

**SUBJECT:** RF Evaluation Modules, Bluetooth ETU Series, Part Number Change

**BULLETIN #:** PCN.PG13315.03.26.12 ETU Series, Part Number Change **Date:** 03-26-2012

ETU Series, RF Evaluation modules have been assigned new part numbers.

**EFFECTIVE DATE:**

March, 26, 2012

**REASON FOR CHANGE:**

The part number prefix of ETU series, RF evaluation modules, will change from “ENW” to “EVAL” so as to share a common part numbering scheme with RF module evaluation kits and address the part numbering ambiguity between production modules and development modules. The part number change will also insure that evaluation product purchase orders are routed to our CM where evaluation kits are assembled and repackaged.

**AFFECTED PARTS:**
