

SUBJECT: Material change of EMI filter EXC-CET Series

BULLETIN #: PCN.PG24.08.01.11-1

Date: August 1, 2011

Panasonic Electronic Components will modify MLCC used in the EXC-CET series of EMI filters, from Panasonic MLCC to third-party MLCC, with no impact to spec, performance and part numbers.

Effective Date:

Change will occur with products shipping from Japan starting January 1, 2011.

Change Details:

Material (MLCC) used in the EMI filter products will change from Panasonic internal source, to third-party MLCC parts. This is a result of Panasonic's strategic exit from the MLCC market. There is no impact to performance, spec and part numbers.

Affected Parts:

EXC-CET*** Series:

| Part Number | Value in pF |
|-------------|-------------|
| EXC-CET220U | 22 |
| EXC-CET470U | 47 |
| EXC-CET101U | 100 |
| EXC-CET271U | 270 |
| EXC-CET471U | 470 |
| EXC-CET102U | 1000 |
| EXC-CET222U | 2200 |
| EXC-CET103U | 10000 |
