

New SF2C Series Slim Size, Type 2 Safety Light Curtain

Compact Design with Easy Installation and Decreased Wiring!

Panasonic, a world leader in Industrial Automation Products, is pleased to introduce the **SF2C Series** Type 2 Safety Light Curtain. This light curtain features a slim size design with a built-in multifunction indicator. The wiring of the unit consists of just five wires for each the emitter and receiver, allowing you to easily implement safety measures on your machine with a similar setup time to an area sensor.

Features

- Compact, Slim Size Design
- Type 2 Safety Protection
- 10-Wire Design (5 on Each Emitter/Receiver)
- Large, Multi-Purpose Indicator
- RoHS Compliant

Benefits

- Can Flush Mount to a Machine with Zero Dead Zone
- Decreased Wiring Time
- Can Also Be Used as an Area Sensor
- Built-In Indication of Output State

Industries

- Semiconductor
- Medical
- Packaging

Applications

- Machine Safeguarding
